ITMB Publishing LTD : 1. Newfoundland Labrador Travel Reference Map 1:750K/1.39M before purchasing it in order to gauge whether or not it would be worth my time, and all praised 1. Newfoundland Labrador Travel Reference Map 1:750K/1.39M:

3 of 3 people found the following review helpful. Nice map
By 50 Pound Limit I reviewed this before and reminded people that you can get a free map from the tourism bureau. That free map may be all that you need. This map I have since studied a bit more and it has further details, including old abandoned towns. So if you want a very comprehensive map, you will want this one as well.
1 of 1 people found the following review helpful. Great if a flimsy paper map is OK
By Dave Best option for getting the "big picture". Would be nice if they also sold a weather resistant version for folks traveling by motorcycle in such a rainy place.
2 of 2 people found the following review helpful. Map was so big I had a hard time finding ...
By Beverly Spencer Map was so big I had a hard time finding all the places we are going to visit. With a magnifying glass, I found all the areas of our trip. Maybe, the map needed to be this large.

Newfoundland was Britain's first colony (1534) and Canada's newest province (1949), following the historic vote by the Newfoundlanders to agree to join Canada following WW2. As a result, Newfie is a tad different than the rest of the country. Historically, it has the oldest immigrant settlement ever discovered in the Americas (Gros Morne a Viking village circa 1,000 AD), the Grand Banks fishing area that stimulated exploration by European powers in the late 1400s, and the staging airfields that enabled tens of thousands of planes to be flown to Europe during the war. Touristically, you'll never find friendlier people than Newfoundlanders, and the moose population exceeds that of any other part of the world. This is a double-sided map, with the island of Nfld. on one side, showing all roads and villages, and the French islands of St. Pierre et Miquelon, as well as an inset map of St. John's (the capital, and a fascinating city to visit). The other side is unique. Labrador forms the wilderness part of the province. It has never been mapped properly by the government, so this is the first-ever map of this enormous and largely-unexplored part of Canada. There is a land connection from Baie Comeau in Quebec north to Labrador City, and an east-west dirt road to Goose Bay via the huge power station at Churchill Falls, and ferry services along the coast. The rest is as wild as it gets. Printed on paper;

About the Author Our Canadian series continues to grow in popularity. Somewhat to our surprise, our map of Newfoundland and Labrador has exceeded our expectations and has now been modestly updated and re-released. The biggest change is to record the on-going process in creating the east-west Trans-Labrador highway and its southern extension to Blanc Sablon in easternmost Quebec. A seasonal all-weather gravel road is now apparently complete, which is a huge step forward for summer travel in Labrador. Newfoundland, Canada's newest province, is also Britain's first overseas colony (1534) and the site of the first Norse village found in North America (circa 1,000 AD)
