There were a few more of John Wayne's movies, however, that could have been included, but on the whole I really like this book.0 of 0 people found the following review helpful. Western fans - Ante up the moneyBy Dawn F.Wish every movie mentioned had an photo with it but I agreed with the editor on the majority of the movies listed . Lee Van Cleef was a favorite of mine and he's in 7 of these. The book is not that small (another reviewer's comment).0 of 0 people found the following review helpful. The editing of the book was appalling.By CustomerThe editing on the book was the worst I have ever experience eg. sometimes the names were in Capital letters but most times it was either in lower case or in combination eg. john Wayne, kirk douglas, Antony quin. The same applied to place names or other descriptive terms.In some cases the events in the movies being described were incorrect eg. in discussing Butch Cassidy and the Sundance Kid the scene where they evade the posse by leaping from a canyon wall into the river is said to be in Bolivia when it was in the USA
