Kristina M. Ackley : 100 Top Internet Job Sites: Get Wired, Get Hired in Today's New Job Market (Savvy Careerbuilder) before purchasing it in order to gage whether or not it would be worth my time, and all praised 100 Top Internet Job Sites: Get Wired, Get Hired in Today's New Job Market (Savvy Careerbuilder):

0 of 0 people found the following review helpful. Everything you wanted to know about internet job sitesBy

Eugenia This book is the only one I came across that explains major internet job sites and what type of information they can provide. If one is a high school student, college student, or career changer, there is a list of the sites that offer free personality tests that can determine the best jobs out there for the individual. For people who know what jobs they are seeking there is a comprehensive list of web sites offering job openings as well as networking organizations and headhunters. Once you find the job you are interested in there is a list of web site that will help you determine reputation of the company you are applying to and how well financially they are doing. In addition, you will find tips on interview techniques and writing cover letters as well as references on salary negotiation. Quick read, well worth anyone's time. 10 of 10 people found the following review helpful. Excellent, affordable guide for finding a job online! By Steve Baumler WOW! This book organizes your job search the same way a headhunter or career counselor would--for a small fraction of the cost! I was able to find the answer to every job search question I had, and then some, (from how to write a resume and cover letter to the best place to post your resume to learning what salaries and benefits you should ask for) by using the sites listed. I also liked learning how to find "insider's information" about the company you're applying to. Would highly recommend this book to anyone. 2 of 2 people found the following review helpful. Invaluable book on the internet as to secure a job/career. By Midwest Book Review Kristina Ackley's 100 Top Internet Job Sites tells how to prepare for employment via the Internet; from locating information about a dream job to locating resume-posting web sites and researching employers. A valuable book on career explorations via the Net.

Here's the first book to explore the Internet job search process BEYOND popular job posting sites.

About the Author As a communications specialist and Web designer, Kristina Ackley has located her most recent three jobs through the Internet. She regularly works with major Internet job sites. She resides in the Washington, DC metropolitan area.
