**Jay A. Block, Michael Betrus : 202 Great Resumes** before purchasing it in order to gage whether or not it would be worth my time, and all praised 202 Great Resumes:

0 of 2 people found the following review helpful. Get the Interview Everytime.By DCodyHad alot of valuable information I needed to update and make my resume better.0 of 0 people found the following review helpful. not greatBy NRLI thought this book would be a good reference to see great styles and get ideas but was disappointed. I don't know what they based their career field selections on but of the 1000s of jobs, 202 isn't that many. Stylistically, most of the examples seem to go against the advice of other resume books and were not impressive. I did find a few helpful ideas from 2 or 3 of the resumes and it helped somewhat just to read through that many butit would be better for someone whose career choice happens to be in the book and the example they have is for someone at the same level.0 of 0 people found the following review helpful. UsefulBy VirgieI collect books such as this to get ideas when writing non-personal letters. Phrases and words are useful when you just can't "think" of the appropriate one.

A comprehensive collection of sample resumes for any job in any field 202 Great Resumes! gives job hunters more of everything they need to get a great job.
