another book and did a very poor job of it as well. It looks like they used a library photocopy machine and then rebound it (the binding is professional though). The text is very hard to read because of poor copy and because the type is so small. They could have at least scaled it larger - the text is squeezed into about half the available page space. I'm very disappointed that allows this kind of thing to be sold on their site. The cover says "High Quality Paperback", but that could not be further from the truth.

A Samoan Dictionary: English and Samoan, and Samoan and English; with a Short Grammar of the Samoan Dialect by George Pratt is presented here in a high quality paperback edition. This publication was produced from a professional scan of an original edition of the book, which can include imperfections from the original book or through the scanning process, and has been created from an edition which we consider to be of the best possible quality available. This popular classic work by George Pratt is in the English language. A Samoan Dictionary: English and Samoan, and Samoan and English; with a Short Grammar of the Samoan Dialect is highly recommended for those who enjoy the works of George Pratt, and for those discovering the works of George Pratt for the first time.
