**Barbara London, Jim Stone : A Short Course in Photography: Film and Darkroom Plus NEW MyArtsLab with eText -- Access Card Package (8th Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Short Course in Photography: Film and Darkroom Plus NEW MyArtsLab with eText -- Access Card Package (8th Edition):

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab Mastering products exist for each title, including customized

versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab Mastering products. Packages Access codes for Pearson's MyLab Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- The London, Upton, Stone series has helped over 1,000,000 photography students capture their potential. The new 8th edition of *A Short Course in Photography* introduces students to the fundamentals of photography and suggests ways in which they might create photographs that have meaning. With a special focus on black and white photography, the book also explores digital techniques and web photography resources, equipment, cameras and camera accessories, the exposure and development of film, and the making and finishing of prints. All aspects of the process are explained and illustrated clearly in two-page spreads, each of which addresses a self-contained topic.
