Beverley Nichols : A Thatched Roof before purchasing it in order to gage whether or not it would be worth my time, and all praised A Thatched Roof:

Written with something today's authors have forgotten, the heart.I plan to get the other two in this trilogy, and maybe a couple more. This is a keeper, and get a couple more copies to give to someone you love.3 of 3 people found the following review helpful. Village of Delightful EccentricsBy Paul BrimiThe joy of home ownership

is compounded by the delight of an English cottage in the country side in a lovely village filled with delightful eccentrics. 2 of 2 people found the following review helpful. Another wonderful Nichols' tale. By Granny-By-The-Sea This is the second in Nichols' series about his garden, house and village. It is not quite as wonderful as Down the Garden Path, but very well worth while if you enjoy Nichols' sense of humor, observation of his neighbors and eye for detail.

This hilarious memo is brimming with unforgettable characters and the author's keen understanding of the important role gardens play in the modern world.

While the ostensible topics are houses and people, it is Nichols' love of gardening, and the villagers who either encourage him or thwart him in its pursuit, that remains the lively theme through all the books. -- Valerie Easton Seattle Times 20050916 At first glance, the book might appear sweet and a little cute, but don't be fooled. Nichols knows how to throw out a few zingers and reveal his true feelings with a good dose of sarcasm. Nichols is as observant as Jane Austen, as witty as Oscar Wilde, and as sentimental as James Herriott. He also happens to be as funny, timely, and un-P.C. as Jon Stewart. Home and Garden 20060101 From the Publisher In his usual charming and hilarious style, Nichols takes us through the changes to his cottage in Glatton: the installation of central heat, the putting in of electric lights, the careful re-thatching of a roof, the digging of a new well. Indeed, something is always happening at Thatched Cottage. Originally published in 1933. Second book in the Allways trilogy. About the Author Beverley Nichols (1898-1983) was a prolific writer on subjects ranging from religion to politics and travel, in addition to authoring six novels, five detective mysteries, four children's stories, six autobiographies, and six plays. He is perhaps best remembered today for his gardening books. The first of them, Down the Garden Path, centered on his home and garden at Glatton and has been in print almost continuously since 1932. Merry Hall (1951) and its sequels Laughter on the Stairs (1953) and Sunlight on the Lawn (1956) document Nichols' travails in renovating a Georgian mansion and its gardens soon after the war. His final garden was at Sudbrook Cottage, which serves as the setting for Garden Open Today (1963) and Garden Open Tomorrow (1968). The progress of all three gardens was followed avidly by readers of his books and weekly magazine columns.
