**Jill Keefe : Acadia National Park Waterproof Trail Map, Maine** before purchasing it in order to gage whether or not it would be worth my time, and all praised Acadia National Park Waterproof Trail Map, Maine:

2 of 2 people found the following review helpful. Excellent for Planning a Hiking Trip.By JL This map was perfect for my solo hiking trip to Acadia. I had routes planned out, but rain forced me to change them. Luckily, I had a nice (waterproof!) map to consult for alternate routes. Many of the less popular trails in Acadia are not particularly well-marked so having a map came in handy to keep myself on the right path. This map shows all of the trails, unlike a map printed out from Google maps which would be missing several. If you are planning to stick to carriage roads, this map would be overkill, but for hiking, it is indispensable. 5 of 5 people found the following review helpful. Great map By Mike Chartowich Durable, large scale, distances between trail points, easy to read, helpful trail summaries. I don't have anything negative to say about this map. At Acadia NP HQ they had all of the other maps sold online. I had already purchased this one so was curious to compare it with the other ones available. After doing so I still think this one is the best. It is also the one the the park HQ stocks the most so I am guessing they like it the most too. 2 of 2 people found the following review helpful. What a great map... By HMS Warspite This Acadia National Park map covers all of Mount Desert Island, including nearly all of the national park (except Isle au Haut and the Schoodic Peninsula). It includes all the trails and carriage roads (super for biking) and all the scenic spots. The multi-color presentation brings out the terrain relief, and highlights parking, bus stops and trail heads. The margins provide descriptions of the major trails. This should be one-stop shopping for navigating around Acadia. Highly recommended.

Third edition revised in 2015. Printed on durable, waterproof material to 1:22500 scale and, contour lines, mileage indicators between points of interest, it is a perfect companion for hikers and visitors to the Acadia National Park and Seashores. Hiking and cycling trails are distinctively marked, making it easy to stay found. This map was designed and published by regional residents, and a portion of the proceeds from sales of this maps is donated to organizations that support trails maintenace and land conservation.
