Floyd Richmond, Thomas E. Rudolph, Stefani Langol, Lee Whitmore : Alfred's MusicTech, Bk 1: Composing Music with Notation, Book Data CD (Alfred's MusicTech Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Alfred's MusicTech, Bk 1: Composing Music with Notation, Book Data CD (Alfred's MusicTech Series):

Alfred's Music Tech Series: Composing Music With Notation is a breakthrough method designed for elementary to

high school students that can be used in a classroom setting or for individual study. Progressive and supplemental activities are included in each unit. Complete with an accompanying data CD that contains compatible files for most music-notation software programs, *Composing Music With Notation* introduces and explains concepts that will help music students to have a broader understanding of the elements of music, become familiar with the operation of notation software programs, compose melodies and accompaniments on the computer, and use notation software to create their own arrangements! Best of all, no previous experience with music notation software or music theory is required!
