The sheer size of each required constant adjustment if one used a waterproof case (which is common on a canoeing trip) in order to prove useful during the day. I would have happily paid more for a more appropriately sized map as the map quality was good, accurate and extremely useful.1 of 1 people found the following review helpful. OK map - A Couple Accuracy ItemsBy Cave DwellerNice map, and readable. Scale is 1:62400 with a UTM grid. I just used it on a river trip and I did find some accuracy issues. Most notable was the it showed a couple wilderness campsites that have since been removed (or at least they're not on the AWW map or North Maine Woods campsite list).0 of 0 people found the following review helpful. Must have for an Allagash canoe trip!Don'tBy lville flyerDon't hesitate..if you are going to do any canoeing on the Allagash.....GET THIS!I went on a 4 day canoe trip with 7 others and it was fantastic!It held up to the water and abuse and made it very handy and easy to approximate where we were and what was ahead.
