JAMA Network Editors : AMA Manual of Style: A Guide for Authors and Editors Special Online Bundle Package before purchasing it in order to gage whether or not it would be worth my time, and all praised AMA Manual of Style: A Guide for Authors and Editors Special Online Bundle Package:

0 of 0 people found the following review helpful. A must for those who have AMA style requirementsBy K W.Once I got used to how this book was set up, I love it. It is very detailed and easy to understand and although a required

textbook for my major, I am glad I have it and would have bought it anyway. It is necessary to have throughout your entire time at college in order to ensure all formatting and writing content is correct for AMA style. It did seem to be missing a few things that I needed or maybe I just haven't found it so far. Overall, it is very comprehensive and well organized. 3 of 3 people found the following review helpful. I asked the publisher if I just had a bad copy, but they stated that there is a ...By Cure CF Now This edition was printed much lighter than the 9th edition. I asked the publisher if I just had a bad copy, but they stated that there is a different publisher now, and they forwarded my complaint to them. No one ever got back to me, and I needed to use the manual, so I abandoned the issue. Otherwise, the manual is as expected, an invaluable resource for editors and writers of articles destined for AMA journals. 10 of 10 people found the following review helpful. Don't buy the bundle By Yiran Unless you use the online version very very frequently, don't buy the bundle. The so called bundle means a package of the book and one-year online use of the book. Besides the new part for Internet publishing, there is almost nothing new. I prefer the last version, which is much thinner.

The AMA Manual of Style is a must-have guide for those seeking to publish research findings and anyone involved in medical or scientific publishing. But more than just a style manual, it offers guidance on how to navigate the dilemmas that authors, researchers and their institutions, medical editors and publishers, and members of the news media who cover scientific research confront on a daily basis. Written by an expert committee of JAMA Network editors, this 10th edition thoroughly covers ethical and legal issues, authorship, conflicts of interest, scientific misconduct, and intellectual property, in addition to preparation of articles for publication, style, terminology, measurement, and quantification. Now online! The online subscription is activated by entering an access code number bound into the cover of the book. Customers who purchase the Special Online Bundle Package receive the hardcover 10th edition, with a one-year subscription to the Online Edition. www.amamanualofstyle.com
