2 of 2 people found the following review helpful. Great guide for Beginner UsersBy Aviator94Well written book about using the Echo product from initial install and set up to more advanced applications using third party devices. Didn't give it 5 stars because I was hoping for more details and specifics concerning practical home automation including lighting, sound systems, and home theater systems. However, was still useful to help understand how to get more out of Alexa than just simple stuff.2 of 2 people found the following review helpful. Complete Echo User GuideBy Ruhul AminThe book have proper explanation about how to setup and perfectly use Echo. I know basic uses of echo but the guide is really advance level user guide. I learned more useful tips from the book. The book provided all of information are very clear and easy to understand. I hope if you read the book you will become a master your Echo. Mainly I liked the book chapter 3 "Go To Work With Echo". Recommended for beginners Echo user.0 of 0 people found the following review helpful. I think it good and use it to answer questions I might haveBy Bert AliasMy grands use it a lot. My spouse uses it sparingly.. I think it good and use it to answer questions I might have.Just glanced thru the User Guide and it was for my spouse!!!!
