definitive Guide by someone who could outline a Legion of options, short-cuts cool things...the kind of things only an avid user would have discovered. This book reminds me of one I purchased from author Kevin Trudeau...Flashy title but mostly pages of generalized "filler" leaving me only a few steps from the starting line when I've finished the book.0 of 0 people found the following review helpful. I would have like more in depth information but it was okay for ...By R. BartellIt gave basic information but had quite a few misspellings in it, which made me somewhat concerned about the quality of the total information. I would have like more in depth information but it was okay for just getting started.0 of 0 people found the following review helpful. ... probably a five but the echo itself is almost useless. Any questionBy Paul Anthony DeanBook is probably a five but the echo itself is almost useless. Any question, which about half being understood, that echo can't answer is easily answered by google on my iphone
