The American Medical Association : American Medical Association Manual of Style : A Guide for Authors and Editors (AMA) before purchasing it in order to gage whether or not it would be worth my time, and all praised American Medical Association Manual of Style : A Guide for Authors and Editors (AMA):

0 of 0 people found the following review helpful. Ugh I hate research!By LickusAlotit is a research thing..... Ugh I hate research!0 of 0 people found the following review helpful. Easy to use!By John SealockVery handy and informative. A great writing resource.0 of 0 people found the following review helpful. Good bookBy christine marieIf your a PT student, and especially if you want to do research this will help you site everything properly.

The latest edition features an expanded chapter on legal and ethical concerns in publishing. Readers will also find an extensive chapter on statistics, a completely updated chapter on nomenclature, new policies for eponyms and numbers styles, a larger references section, an expanded discussion of inclusive language and abbreviations, and a larger section on figures and tables. A new section on typography is also featured, along with current information on electronic publishing, encompassing rapid changes affecting the publishing environment. End-of-chapter references make the book easier to use, and the entire text is reviewed by more than 70 editors for accuracy and dependability.
