Roy H. Copperud : American Usage and Style: The Consensus before purchasing it in order to gage whether or not it would be worth my time, and all praised American Usage and Style: The Consensus:

0 of 0 people found the following review helpful. Great product!By E. E. WeinrebGreat product!1 of 1 people found the following review helpful. Wonderful writer's resource.By Sarah Michelle WagstaffAs a writer this is a great resource. A boring book that sits on my shelf until I have a question. Is it then or than? Is it lay or lie? Then the answer is right there, clearly laid out.2 of 2 people found the following review helpful. Good information, difficult to readBy Yours TrulyThis book was cited by several editors on LinkedIn as a must for their reference shelves, so I ordered it immediately. As someone who edits professionally, I found the (small, odd face) type and the presentation did not serve me well. Perhaps it's one of those works that becomes more helpful with use. I haven't chucked it, but I can't say I use it.

I used this book extensively for many years and it served as the ultimate source for solving style problems in writings. After I retired I gave it to one of my sons to help him while in graduate school. B-3
