**Gary Luke, Susan Quinn : Americanisms: The Illustrated Book of Words Made in the U.S.A.** before purchasing it in order to gage whether or not it would be worth my time, and all praised Americanisms: The Illustrated Book of Words Made in the U.S.A.:

0 of 0 people found the following review helpful. English Teacher's FriendBy kgtm646I ordered this to use in my high school English classes.The kids loved it and I found it tobe a great "hook" for their learning more about language. Thanks for making my classroom amore interesting and fun place for learning!

Since the first settlement at Jamestown, Americans have been busy inventing new words and phrases for the English language. Some of them, like "beauty parlor," are prosaic, while others, like "quickie," hint at the scandalous. This book salutes a wide range of these "Americanisms," with 125 examples. Each entry includes a definition, a brief etymology, and an example of the word in context. Each also comes with a literal or interpretive archival photograph that acts as comic counterpoint. Words include "lowbrow," "cheapskate," "electrocute," "hippy," and "ghostwriter." From "Afro" to "zipper," this intriguing and witty gift book is sure to delight and divert word lovers everywhere.
