whether or not it would be worth my time, and all praised Anderson's Ohio School Finance, A Practitioner's Guide:

A fundamental resource for both current and prospective school administrators, school treasurers, and boards of education, this guidebook offers in-depth coverage of how the school funding process works currently and how this process may be improved. The work examines current economic issues, local and state funding processes, inadequate capital funds, the deteriorating condition of Ohio's school buildings, federal funds and specialized school districts and

agencies, and processes for accounting and managing funds for schools.
