Jonathan Thomas : Anglotopia's Dictionary of British English: British Slang from A to Zed before purchasing it in order to gage whether or not it would be worth my time, and all praised Anglotopia's Dictionary of British English: British Slang from A to Zed:

1 of 1 people found the following review helpful. Brit Expressions Explained!By Rick CarolynWe enjoy British television programs. Lots of them are easily found on DVDs. But from time to time, some plain-sounding English sounds very foreign.This little book is the decoder for all those little British expressions that have their own American meanings.Written with a sense of humor that seems to enjoy our language differences. Weve had a lot of fun flipping through its pages.We are glad we made the purchase. I hope this helps with your decision!--Boto6 of 6 people found the following review helpful. Only Works One WayBy Ruth L. EdenbaumAs an American who writes stories set in England, I have many such dictionaries. This is one of hte best in terms of organization and variety of topics. My only quibble is there is not way to find the British equivalent of an American word. SOme sort of appendix telling you at least what page to go to would have been helpful.0 of 0 people found the following review helpful. great list!By Lady DeborahGreat little book. Although it is not comprehensive it is a great start. Given the fact that languages are living and changing, perhaps best to stick with some of the best known most used expressions, as others might change over time.It would have got five stars except for two--TWO!!!-- incidences of the misuse of it's. Shame: you should know better, and so should whoever proofread or edited this book. When used as a possessive, 'its' requires no apostrophe: 'it's' is a contraction for 'it is.' If you get confused, substitute 'it is' in the spot you want to use 'it's' and if it doesn't make sense, you do not need the apostrophe.

It is often said that Britain and the United States are a common culture divided by language. This book is a guide to all the fun linguistic differences between American and British English. The British not only have their own unique words but they also use certain words much differently and this book seeks to gather all those words and phrases in one place for easy reference. This book is perfect to keep on hand while you're watching the latest episode of Downton Abbey or Doctor Who and you hear a word that you don't understand. It is our hope that this book will enrich your experience of British Culture and lead to further understanding between our two countries. In this book: General Word and Phrase Dictionary Cockney Slang Guide Scots English Guide Scouse English Guide Yorkshire English Guide West Country English Guide London Slang Australian English Amusing British Place Names And More!!!
