**David Alderton, Amy-Jane Beer, Andrew Campbell : Animal Kingdom (Pocket Encyclopedia)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Animal Kingdom (Pocket Encyclopedia):

0 of 0 people found the following review helpful. Fun Read! By Cassie This book is not a COMPLETE encyclopedia on all animals in existence (found that out when I was trying to look for the anglerfish), but it does cover a fair amount of the different groups (fish, big cats, reptiles, birds, etc.--click the "Look Inside" picture for the specific ones included). It has a few pages on each animal, along with some interesting facts and the standard info such as where they are found, nomenclature, habits, and diet. Doesn't really fit in a pocket (it's about standard size for a book, just a bit smaller), but it beats lugging around a five-pound textbook. If anything, just get it for the pictures. They pretty much make up the entire book, and are just beautiful!

Book by Alderton, David, Beer, Amy-Jane, Campbell, Andrew
