DK Publishing : Animals: A Visual Encyclopedia (Second Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Animals: A Visual Encyclopedia (Second Edition):

0 of 0 people found the following review helpful. The perfect book for kids interested in animals!!!By RachaelFilled to the brim with educational, interesting and fun facts about nearly every type of creature your child would want to learn about. I read reviews on other similar books but see that this was most recommended. I see why. This is so worth buying!!!!!! My 6 year thanked me over and over again for this book!0 of 0 people found the following review helpful. best gift for a toddler who likes animals!By Joan SangreeThis book has been my 2-year-old's favorite for several months now, engrossing her for hours at a time. The pictures are fantastic, and the descriptions are fascinating, even for an adult. For example, we learned that apes don't have tails while most monkeys do. This will definitely grow with her!0 of 0 people found the following review helpful. Encourages a love of animalsBy maamaakrystalGot this for my 10 year old as a simple reference to animals around the world. He spend two weeks looking uup new animals each day

and called grampa to see what he knew about said animal.

Following in the footsteps of DK's bestselling adult title *Animal*, which sold in excess of 2 million copies, *Animals: A Visual Encyclopedia* reveals the wonders of the animal kingdom to a younger readership. Structured by animal group with separate entries for every notable type of animal, from ants and aardvarks to wasps and wallabies Fact files provide key information on behavior, distribution, diet, and conservation issues Action photography reveals wild animals interacting in their native habitats and puts natural behavior in context Highlights animals most likely to fire the imagination of young minds: the deadliest, the largest, the friendliest, the fastest, and the downright strangest Supports the Common Core State Standards.
