It'd be fine if the book didn't have the ones that go with the online companion website, but the answer key doesn't even have all the ones from the written activities either, which is why I gave it 3 stars.1 of 1 people found the following review helpful. Transcripts can help students who like

to see words in printBy Ann AndersonThis book is particularly helpful for providing a written version of the vocabulary sentences that you hear spoken on the textbook website. As a learner, I sometimes have trouble understanding speech and like to see the spelling, to help recognize words or so I can better look up words in the textbook's glossary. When it's hard to find a word in the glossary (because Arabic words are not listed quite as alphabetically as English ones), you can type the words in on an online translator. These sentences are a good study aid.0 of 0 people found the following review helpful. Beautiful ProductBy Mike MahmoudI love this product because since I am a Arabic teacher and my students have this book so I can know the answers to the questions. I can even give them tests. I really recommend this product.

This answer key is to be used with Al-Kitaab fii Ta callum al-cArabiyya: A Textbook for Beginning Arabic: Part One, Third Edition. Please note that this answer key contains answers for exercises that are in the book. It does not contain answers for exercises only on the Companion Website.
