Jason Hanna : Antique Trader Indian Arrowheads Price Guide (Antique Trader Arrowhead Identification and Price Guide by Jason Hanna) before purchasing it in order to gage whether or not it would be worth my time, and all praised Antique Trader Indian Arrowheads Price Guide (Antique Trader Arrowhead Identification and Price Guide by Jason Hanna):

1 of 1 people found the following review helpful. Not very useful
By Allen Torbert
The book has very good pictures of arrowheads. But, it lacks sufficient information to make it useful for people who do not already know about arrowheads. The book was divided into time periods, but after that it seemed to be a random collection which made it difficult to find useful information.
5 of 5 people found the following review helpful. Lithic Collector
By Chad Gilbert
A real waste of money. While the photos are very good, the identification of point types and location references are the worse I have encountered. Instead of identifying point type, the author refers to most as corner notch or side notch. Even a novice collector could have done a better job. With all the really good reference books available this one is a book.
0 of 0 people found the following review helpful. reference book for me. good enough for the trade.
By Timothy D. Kelley
another good book. these are all good books.

Coverage is divided into four separate time periods for easily identifying and studying specific points. *Antique Trader Indian Arrowhead Price Guide* offers extensive coverage of one of man's earliest efforts to create and manufacture objects of symmetry and beauty. Representative of a unique art form, arrowheads are as beautiful and individual as they were once functional. Often ranging in value from less than \$10 to more than several thousand dollars, you'll gain a collecting advantage with the tips for grading, classifying, finding a buying points, 1,000 photos for accurate identification and expert pricing in this expert guide.

About the Author Jason Hanna is a 10-year member of the Archaeological Society of Ohio, with 15 years of experience collecting arrowheads and other Indian artifacts. His own collection includes more than 5,000 pieces. He appraises private collections and has written many articles on arrowhead collecting.
