**Geraldine Woods : AP English Language and Composition For Dummies** before purchasing it in order to gage whether or not it would be worth my time, and all praised AP English Language and Composition For Dummies:

Great AP prep book!By Sarah NevilleI wasn't sure about this because on places like [...] most kids were only talking about Barrons and Kaplan and other well known test prep books... but I found this one to be extremely helpful. It's meant not just as last-minute prep but to help you throughout the year, although I used it for last-minute. It's a really huge, thick book with lots of content. The practice tests were great, and there's a lot of solid advice that you can just sit down and read when you're in freak-out mode the week before the exam. I recommend it.0 of 0 people found the following review helpful. A real help to the new student or teacher of APBy Ann L.
