**From Brand: American Psychological Association (APA) : Apa Concise Dictionary of Psychology** before purchasing it in order to gage whether or not it would be worth my time, and all praised Apa Concise Dictionary of Psychology:

0 of 0 people found the following review helpful. Handy HelperBy LoloThis book is very helpful if you are taking psychology in college. It is also very helpful if you are interested in the mind and the different types of disorders that

are prevalent in society, especially if you want a definition that is not overly confusing. Mind you, that there are some words that may not be in this book but you may find them in an older psychology dictionary. But all in all I say this is a great edition to any psychology library.0 of 0 people found the following review helpful. Beverly, middle NYSBy Beverly M. Kehoe SheaIt was in excellent condition; just what I wanted for my studies and for future referencing; it has a large variety of subjects clearly explained and cross-referenced. I highly recommend it has a staple for psychology libraries.0 of 0 people found the following review helpful. Prompt Delivery, Just In TimeBy HugeI thought it would be helpful for my graduate studies, and it was reasonably priced. It arrived just in time, it was recommended for my next assignment.

An invaluable and reliable source, the 'APA Concise Dictionary of Psychology' answers the needs of the ever-increasing number of thoughtful readers from all walks of life who are interested in the ways that psychological science and knowledge cast light on the issues of everyday living.
