National Geographic Maps - Trails Illustrated : Appalachian Trail, Damascus to Bailey Gap [Virginia]

(National Geographic Trails Illustrated Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Appalachian Trail, Damascus to Bailey Gap [Virginia] (National Geographic Trails Illustrated Map):

1 of 1 people found the following review helpful. Perfect except for one small flaw...By NJ CarolinaThis is a great booklet map. Honestly, it's a toss up between 4 and 5 stars, because it is exactly what I was looking for. I love going to hike the Mt. Rogers NRA and Grayson Highlands area, and this booklet map is perfect for throwing in my pocket when I hike since it is booklet form and not a giant fold out map that is too big and has to be folded and unfolded every time. In that regard, it is flawless. It also has all the mileages, lots of great info, and an elevation profile on each page. I have both versions of the Nat Geo map for Mt Rogers area (maps 786 and 318) as well as the AT Conservancy maps for this same stretch of the AT and this booklet map is a perfect combination between the two. The only thing missing, which is why I can't go all the way up to 5 stars, is the water sources. It shows springs and it gets so detailed down to the tiniest things (Like the Scales gated trail), but for some reason, it no longer has any of the water source indicators for those areas where there isn't a clear spring, but there is an actual water source. Other than this one detail, it is absolutely perfect, and it is now the only map I will take with me when I go on any hikes in this area.0 of 0 people found the following review helpful. Waterproof Tear-Resistant Topographic MapThe Damascus to Bailey Gap Topographic Map Guide makes a perfect traveling companion when traversing the southwest Virginia section of the Appalachian Trail (A.T.). The A.T. in southwest Virginia travels through a culturally and historically rich area that includes fertile farmland, long, wooded ridges, and the highest mountains in the state. While the Mt. Rogers high country, just east of Damascus, is very popular with visitors, hikers can find excellent opportunities for solitude farther north on their way to the New River and Bailey Gap.Each A.T. Topographic Map Guide includes detailed topographic maps at a detail of 1 inch = 1 mile. Each page is centered on the A.T. and overlaps with the adjacent pages so there is little chance of getting lost. Along the bottom of each page is a trail profile that shows the distance between shelters, camping areas, and trail access points. The map and trail profile provide a step by step visual guide to hiking the trail, mile by rugged mile. The Topographic Map Guide is built for all levels of hiking enthusiasts, from the day tripper to the multi month 'thru-hiker'. The front pages of the printed Topographic Map Guide include resupply information, town inset maps, camping options, and much more. Every Topographic Map Guide is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Abingdon Gap Shelter, Atkins, Bailey Gap Shelter, Bastian, Bland, Bluefield, Chatfield Shelter, Chestnut Knob Shelter, Damascus, Doc's Knob Shelter, Grayson Highlands State Park, Helveys Mill Shelter, Hurricane Mtn Shelter, Jefferson National Forest, Jenkins Shelter, Jenny Knob Shelter, Knot Maul Branch Shelter, Lost Mtn Shelter, Marion, Mount Rogers, Old Orchard Shelter, Partnership Shelter, Pearisburg, Pine Swamp Branch Shelter, Princeton, Rice Field Shelter, Saunders Shelter, Tazewell, Thomas Knob Shelter, Trimpi Shelter, Wapiti Shelter, Wise Shelter.
