Good resource, make sure you know your letters and some basic vocabular before tackling this oneBy Reasonable ReviewerIt is a very good book, but you should plan on putting in some hours with your dictionary as you translate back and forth,I was looking for something a little more in the beginner range, and it is, but you have to know your letters, and it jumps right in with full fledged stories in Arabic and English.2 of 2 people found the following review helpful. A Useful Literary and Cultural Book for the Student of Intermediate ArabicBy B. SbaitiI bought this book as soon as I saw it, as I have wanted this sort of aid for a long time. I lived in the Middle East for fifteen years, in a mostly English-speaking environment, and picked up a lot of conversational Arabic, which differs somewhat from the written form. The language used in the book is challenging to me, though I can get through stories with help from my Arabic-speaking husband. It would be nice--for the novice--to have had the short vowels included, though it is useful to read the language as it usually appears in print. An audio disk is included with the book.0 of 0 people found the following review helpful. greatBy racerbonegreat book, very helpful for vocab although i feel the levels jump quite a bit. i consider myself intermediate and the first couple of stories i understood most if not all of the stories only looking up a handful of words but then after some stories it jumps and i have to look up a lot of words.
