Cicero S. Vaucher : Architectures for RF Frequency Synthesizers (The Springer International Series in Engineering and Computer Science) before purchasing it in order to gage whether or not it would be worth my time, and all praised Architectures for RF Frequency Synthesizers (The Springer International Series in Engineering

and Computer Science):

This text describes a conceptual framework for analyzing the performance of PLL frequency synthesizers, and presents optimization procedures for the different performance aspects. It contains basic information and in-depth knowledge, widely illustrated with practical design examples used in industrial products.
