Thomas H. Martinson : Arco Everything You Need to Score High on the Gmat Cat 2000 before purchasing it in order to gage whether or not it would be worth my time, and all praised Arco Everything You Need to Score High on the Gmat Cat 2000:

GMAT CAT 2000 is one of the smartest investments you'll ever make. Here's why. The MBA and related degrees are hot tickets, and your GMAT score is the most important determinant of whether you're ushered into the front row center of the orchestra or wind up searching for a seat in the last row of the second balcony. Even a small difference in your GMAT score can make a large difference in where you go to school; where you go to school determines what job offers you get; and the right position is key to long-term success. GMAT CAT 2000 gives you the power to leverage your future. You get self-diagnostic tools, in-depth subject reviews of all GMAT topics (math, verbal, analytical

writing), powerful test-taking strategies, and a variety of reinforcement tools to give you mastery of all GMAT subjects and help you track your progress. The book also includes a complete math review (for those who need it) and invaluable advice on creating a winning B-school application. The author, Thomas H. Martinson, is the nation's pre-eminent authority on GMAT preparation. A graduate of the Harvard Law School and a founding partner of one of the oldest GMAT preparation firms in the country, Professor Martinson has published nearly three dozen full-length test preparation books, and his course materials are used by over 300 colleges and universities throughout the country and internationally. ARCO is America's leading publisher of test guides. Its 60 years of helping test-takers raise their scores makes it the longest running and most reliable authority in the field. ARCO's bestselling study guides and software have been used successfully by more than 50 million test-takers. In short, GMAT CAT 2000 is the one guide you can't afford not to own.

From the Author Your success is guaranteed! If your official GMAT score does not increase, the publisher will refund the purchase price of the book. To my knowledge, this is the only GMAT guide with a guarantee, and it's the best way we have of saying to you that we stand behind this book and its content. I've been teaching GMAT prep for almost 25 years and have published nearly three dozen books. This one is, by far, the most successful in its field. The GMAT CAT 2000 study plan includes a diagnostic test followed by in-depth reviews of each GMAT question type then, for reinforcement, a series of full-length practice exams with detailed explanations of both right and wrong answers. I've also included a complete math review (for those who need one) and important tips on crafting a winning application that were given to me by admissions officers from top business schools. The book is also available with software on CD-ROM. (Look for it here at [.com](#).) The software was created by the Cambridge (with my input) using technology developed by CAT, Inc., a world leader in interactive testing. One final note. GMAT CAT 2000 is supported by CyberPrep.com, which maintains a web site that offers extra drill, overview lectures, admissions advice, and other services to the users of this book. In sum, ARCO's GMAT CAT 2000 is your guarantee of success.
