Douglas Johnson, Maureen Johnson : Art Models 9 Enhanced: Clothed Figures for the Visual Arts: DVD-ROM (Art Models series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Art Models 9 Enhanced: Clothed Figures for the Visual Arts: DVD-ROM (Art Models series):

0 of 0 people found the following review helpful. Art models clothed. By PAJ BEARDI opine all the following: Today I downloaded a sample of the clothed version of Art Models series. I already have and use books 1 to 7 and 10. The sample so impressed me that I ordered the DVD. The format of each pose by different models both men and women with 24 rotation images is very impressive in the Series. So I am confident that the other poses will also be. At a life drawing session with easels etc, one may be lucky to get a good place to draw from but that may be the only spot to draw from. In Douglas Johnson's photos, it is as though the life model could rotate so as to try drawing different aspects of them. Moreover it means that all the poses and their rotations can be viewed and drawn away from the

studio at no extra price, thus making the DVD worthwhile.0 of 6 people found the following review helpful. It's just that I like to have the book to along with the dvd ...By J. HoldridgeThis not a hardcover book-it's a dvd only. I haven't returned it yet as my previous experience with this series has been 5 star. It's just that I like to have the book to along with the dvd as a reference. If I do keep it, I will revisit this review regarding the actual content of the dvd.0 of 9 people found the following review helpful. I'm Sure Its FineBy Objective Reader of DescriptionsOnly, its for PC's only! I did forget my MAC has no disc drive. Its debateable whether I should be mad at Apple or myself for forgetting. Or, I could suggest the company add a online subscription site so those (hello) creative types with MACS can use this. There are already other online subscription sites for references so get with the program! BY THE WAY I own all other cds and they are great quality images. Just needs additional format.

Draw, paint, or sculpt the human figure! Models for figure drawing, painting, or sculpting are traditionally nude. This 9th book in the Art Models series, however, is all about the non-nude figure, finally making this acclaimed reference available to younger artists. Now anyone can study the figure at length and in close-up detail anytime and anywhere. This Enhanced version of Art Models 9 provides access to more and larger photos than the standard version, including all of the 1800+ photos at maximum resolution for use on any PC, Mac, or laptop that has a DVD drive. Practice your life drawing technique, design a scene, study anatomy and drapery, make a finished portrait, do some gesture sketching. The uses of these photos are limited only by your own creativity. Artists wishing to practice or even create finished works of art will find a lot to inspire them. Instructors can refer students of many ages to this book for practice and reference. And the publisher gives full permission to do whatever you wish with the artwork created using Art Models 9 as a reference. Every artist has a unique perspective and Art Models 9 includes a wide range of poses for maximum variety. For example, there are technical poses like simple standing, contrapposto, and the T-pose but also action poses like jumping and kicking as well as sitting and reclining. There are also some quiet moments, portraying mood through posture and lighting. Portraits and expressions round out the mix. Even the lighting is varied; some photos are evenly lit while others are more chiaroscuro, giving ample opportunity to observe the effects of shadowing. Clothing varies from simple drapery with arms crossed over the chest, to underwear, ordinary street cloths, and full-blown costumes.

About the Author Douglas Johnson is a photographer and engineer with a degree in Applied Mathematics. Maureen Johnson is an art director and management analyst.
