James R. Farr : Artisans in Europe, 1300-1914 (New Approaches to European History) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Artisans in Europe, 1300-1914 (New Approaches to European History):

This book is an introduction to the history of work in general and of artisans in particular in Europe from 1300 to 1914. It focuses on many aspects of artisan culture, including economic and guild life, and discusses social, rebellious, ceremonial and leisure experience as well. Women, masters, journeymen, apprentices, and non-guild workers all receive substantial treatment, and the text is illuminated with fascinating illustrations.

"provides excellent overview of the latest historiography...The range is admirable...Farr tells this story in beautifully crafted thematic chapters...Use this book. Your students will love it." Labor History Dec 2001
