ManvilleThis was a pretty useless map, other than providing a very broad overview of New Zealand. Even the more detailed map of Auckland came up short. Since most people fly into the airport, it would have been very helpful if the map had extended to that area, perhaps to the expense of Wellington. I thought it was a waste of money as there are ample local maps available through motels and information centers.1 of 1 people found the following review helpful. Five StarsBy J. EvansNice map for the city.

In this map the cities of Auckland, Wellington and Christchurch are included on one side of the map (NZ urban areas don't tend to be huge). The other side is a very detailed map of North Island, the main island of the country. This map will be perfect for both finding one's way around Auckland's waterfront and for exploring the highways and byways, communing with woolies.
