National Geographic Maps - Reference : Australia Classic [Laminated] (National Geographic Reference Map)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Australia Classic [Laminated] (National Geographic Reference Map):

4 of 4 people found the following review helpful. Laminated Map of AustraliaBy ShortiiiiiiiieThis arrived being better than I expected. The speed of international,delivery wasImpressive. The packaging was great. The map itself is exceptionallyDetailed. I ended up buying two of them - one for a fellow travel buddy.Great to hang up in a school or at home in the study. I don't have a bad thing to say about it.0 of 0 people found the following review helpful. Very niceBy ChristinaThis map is beautiful and made my husband very happy. He had served a mission there and always wanted a map of Australia to put up in his office. Framed it for him too. 1 of 1 people found the following review helpful. ... purchased a map of United States and were very happy with such details in the mapBy robert bradburywe previously purchased a map of United States and were very happy with such details in the map..now we find the same of this map of Australia. Shipping was prompt and map was protected from any possible damage during transit.

National Geographic's wall map of Australia is one of the most authoritative maps of the Land Down Under. The Classic style map uses a bright color palette featuring blue oceans and stunning shaded relief that has been a signature of National Geographic wall maps for over 75 years. This map features thousands of place names, including primary and secondary towns, accurate boundaries, parks and protected areas, aboriginal lands, and transportation infrastructure such as airports and highways. Australia's famous coastal reefs including the extraordinary Great Barrier

Reef are shown as well. Coverage also includes Tasmania and the Coral Sea Islands. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:6,413,000 Sheet Size = 30.25" x 27"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
