Charles Pfeiffer : Baker's Bible Atlas before purchasing it in order to gage whether or not it would be worth my time, and all praised Baker's Bible Atlas:

It includes some of the best maps I've ever seen. This particular copy was for a friend who is teaching adults in Sunday School and I thought it would be helpful to her. I knew I was buying a "used" book; I just didn't realize it was so heavily used. My friend is very happy with it anyway; I

was just a little surprised at how marked up it was. 0 of 0 people found the following review helpful. I found this book extraordinarily helpful, highly recommend!
