Now granted, this is just a journal, not a cookbook. But I have long wished for an index for all of Ina's Books so I didn't have to run over to the Food Network's website to figure out which of Ina's 6 books held the recipe I wanted that day. So as far as I'm concerned, this little gem is worth the money just to have the index! 0 of 0 people found the following review helpful. Five Stars By ROSEMARY makes it easy to find recipes from all of her different cookbooks 2 of 2 people found the following review helpful. A must-have for Ina cookbook collectors By New York Foodie Actually, I bought two--one for my house in SC and another for my apartment in NY. I cook almost exclusively from Ina's cookbooks and this definitely saves time. The journal is

great for recording dinner party menus (and guests) and any substitutions or adjustments you've made to a recipe.
