From Brand: Barron's Educational Series : Barron's Dictionary Thesaurus (Barron's Reference Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Barron's Dictionary Thesaurus (Barron's Reference Guides):

1 of 1 people found the following review helpful. Great Idea; dictionary and thesaurus on same page By promethianI like this book. The dictionary is on the top part of each page, and thesaurus on the bottom part of the page which makes sense. The cover is attractive and binding on the book seems durable and easy to open the book without straining the

spine. The cover is attractive. I will enjoy using this book. The contrasting blue and black print that is utilized is also effective. 0 of 0 people found the following review helpful. Barron's Dictionary Thesaurus By avid reader U.S. This is a great little dictionary / thesaurus with both meanings on one page - the top of the page contains the dictionary and the bottom has the thesaurus. Not all words are available but it is still a handy way to display many definitions similar words.

Here's an especially handy two-in-one reference volume for middle school and high school students. The top half of every page serves as a standard dictionary, while the bottom half is a thesaurus that presents selected words from the dictionary section and gives a list of synonyms for each. This dictionary-thesaurus combination offers definitions of more than 40,000 words and phrases, augmented with over 100,000 synonyms. Headwords in both sections are printed in color. Each dictionary headword is designated by its part-of-speech and comes with one or more definitions. Every thesaurus headword in addition to its list of synonyms comes with an example sentence that uses the word in context. Corresponding dictionary and thesaurus entries are always cited on the same page for fast, easy reference.
