Think about competitors tooBy Kalin Boykov BlajevI think competitors are much ahead of creating a CD which simulates the real exam. Also, I think that the emphasis on a computer based exam should be the computer trainings rather than the book examples. May be it is worth saying that the verbal part is a bit different from what competitors present and with this book in addition one can excel the GMAT exam8 of 8 people found the following review helpful. **DO NOT BUY***DO NOT BUY***READ REVIEWS!**By SW03Boy, did I learn the hard way!I bought this book at a bookstore before checking the reviews on this (and all GMAT Prep books) and boy, am I sorry.\$29.99 and countless hours of frustration, aggravation and tears, and then I logged in and read the other reviews. I wasn't stupid or crazy!The tests were ridiculous. The answers were worse. I sent a sample question to three of the smartest people I know, and I mean Engineer-MBA-can't-beat'em-at-trivial-pursuit-and-know-everything-about-history-politics-religion-everything smart... and they scored as poorly as I did. Out of 6 questions on one reading comprehension sample, no one got more than 3 of them correct.Then, when I turned to the answer key, the answer made no sense at all. I found myself turning pages and saying out loud: Is this the same question?? Am I on the wrong page? **IT DOESN'T SAY ANYTHING ABOUT THIS IN THIS READING!!!** etc. Whoever was responsible for editing this book must have been on vacation that day.This book almost caused me to toss the idea of going back to school altogether. I graduated college 4 years ago, and after a few hours with this book was sure that I lost all brain cells in those 4 years.This is the hands-down worst book you'll ever buy -- save yourself the time and money. Check out ALL reviews that offers -- so far, it looks like the Official Guide for the GMAT review looks best. Excellent reviews and lots of 'em.Don't buy Barrons ANYTHING. Don't be fooled like me into believing they're a reputable name, so surely their book will be helpful. This book made me want to chuck myself over a bridge.Reading reviews and purchasing based on that may be the **SMARTEST THING YOU CAN DO.**oh and PS - **DON'T BUY THIS BOOK!!** (did I mention that??)
