Charles W. Walton : Basic Forms in Music before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic Forms in Music:

0 of 0 people found the following review helpful. Great book By Marc Amazing book. I'm really enjoying it. I'm still reading it, but the author explains things well. It's written like a college book. I've compared this book to other similar books. It's an amazing price for the information in this book.

Musical forms are illustrated through representative literature of all periods. Includes complete examples as well as

suggestions for further listening and analytical experiences.
