For classroom use by trained teacher it's goodBy Not SherlockThis is meant to be used in a classroom by a teacher trained in language learning strategies. It is written by one of the premiere language learning strategy experts in the countries. If used in the classroom this way, along with other materials it's quite good. But it is not for a person to buy it on their own to study by themselves. Also a huge downside is that the CDs are each in a separate package at a separate cost, each of which the teacher has to pay for by ourselves!
