I eventually went to the BLM office for ...By Scooter Bee Dot RocksThis is an ok recreation map, but it said it contained wilderness and back country roads. I was looking for some dirt roads in the BLM district near Homedale Idaho, but the roads were not in the map. I think this is a family campout and travel map, but not detailed. The quality is good. I eventually went to the BLM office for maps, but since theirs are so detailed, it took several and \$20 in maps to get what I needed....which was a bit too much. If you know a map in between.....let me know.1 of 1 people found the following review helpful. Contains many things not available for quick browsing on google maps!By Jeremy Riell still prefer paper maps in many ways, especially specialty maps like these. You can often see many landmarks, attractions, trails, and such that are not easily browsable when you are checking out a web map like Google Maps.This is a good base Oregon map that provides locations of campgrounds, parks, and other recreational areas prominently on the map. The state and federal lands are also prominently marked, especially the state's numerous national forests. Helpful for seeing what's around an area you're visiting.0 of 0 people found the following review helpful. Great for road trip around the state.By Kim G.Simple map of the major attractions, campgrounds, etc in Oregon. Took this little map on a week RV trip through the state. We used it a lot and it was quite helpful in planning a route, stops and detours. We also used it to find State Parks for RV camping along the way. Of course it is missing things since it is the entire state on a small,foldable map, but worth it for a road trip. I just added little sticky notes to places I had found while planning the trip that weren't called out on the map.

The Oregon Recreation Map is the perfect planning tool for everything from a rugged outdoor adventure to day trip with the kids. It's the most complete and detailed folded map ever made of Oregon.
