U.S. News and World Report : Best Hospitals 2016 before purchasing it in order to gage whether or not it would be worth my time, and all praised Best Hospitals 2016:

1 of 1 people found the following review helpful. Best Hospitals 2016By bubblechampVery informative. I'm going to keep this issue for quite some time. I have a family member having some serious health problems and I feel this might be helpful to get a second opinion and diagnosis. Lucky, the hospital she's in is ranked high, which is very reassuring for me. I'm so relieved to have read about it in this magazine. Even her Dr was listed as one of the top Dr's. Anyone who is experiencing serious or unusual/rare problems should have this.1 of 1 people found the following review helpful. Excellent guide for seeking medical servicesBy MAHExcellent guide for those seeking a good medical organizations. For my purposes, I was researching possible new retirement areas of the country and, needing medical

services more and more, the guide help identify potential areas.1 of 1 people found the following review helpful. Five StarsBy Philip L. Reed, IIIVery informative!

Now in its 26th year, U.S. News' annual guide to U.S. hospitals helps both consumers and medical professionals find the best hospitals and understand the latest trends in healthcare. Created by a team of health journalists and healthcare experts, this popular guidebook provides U.S. News' exclusive rankings of the best adult hospitals and children's hospitals for cancer, orthopedics, cardiology, neurology, and other medical specialties. Plus, rankings of the best hospitals in the 100 largest metro areas, the best diet plans (as chosen by nutrition experts), and the most-recommended over-the-counter products for more than 30 common conditions and needs. Chapters include: The Patient of the Future: Dr. Eric Topol, a top healthcare thought leader and author, describes how smart tools will empower people to diagnose and treat themselves at home How 3D printing, telemedicine, and superbugs are transforming healthcare Tapping the Power of Bionics: Meet a real Robocop, who was paralyzed from the waist down but is now back to work thanks to a bionic exoskeleton A Game Changer in the Cancer Fight: New drugs spur the body's own defenses to attack tumors, sometimes with amazing results Marijuana as Medicine: It's a miracle cure for some and is even being tested as a cancer treatment. But research shows limited effectiveness for many approved medical marijuana treatments A special guide to children's health, with in-depth looks at vaccines, anesthesia, allergies, school lunches, and sleep issues The growing field of patient navigators is helping steer sick people to the right care The Travel Trend: Why more companies are paying employees to travel for surgery
