Krannich : Best Jobs for the 1990s O/P before purchasing it in order to gage whether or not it would be worth my time, and all praised Best Jobs for the 1990s O/P:

0 of 0 people found the following review helpful. Best Jobs for the 21st Century by KrannichBy Dr. Joseph S. MarescaThis is an excellent reference guide for career planning.It describes specific strategies for career transitioning fromdownsizing, the chronic shortage of competent workers, job growth in the service industries, small business start-ups anda plethora of factors impacting career planning this century.A variety of new careers are described. For instance, audiology,recreational specialists, dieticians, medical technologists, health service administrators, physical therapists, geriatricassessment coordinators, CAD specialists, Environmental andCivil Engineers, graphic artists, aerobic exercise specialists and teachers are just a few of the many new career options.There are small business opportunities in adult day care,bed/breakfast, desktop publishing, home instruction and awhole host of businesses. The federal government wants people to work at home. Resultingly, a whole host of tax creditsare in place to encourage home ownership and home businessscenarios. This book is a good starting point for researchingthe many career options that exist already.
