2 of 2 people found the following review helpful. An expert guideBy SandyVery helpful in identifying the various types of pieces. Is still the most recent price guide. Could have more photos of the various types although drawings are still helpful. Also, prices are given in a range and the ranges can be quite wide.3 of 3 people found the following review helpful. Essential for Beswick CollectorsBy Laura HartVery valuable reference book, but there a few blank spaces where there should be photos and the drawings are amateurish. Easily remedied in a future edition with the web resources now to hand.
