From 3dtotal Publishing : Beyond Art Fundamentals before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beyond Art Fundamentals:

7 of 7 people found the following review helpful. An excellent book with lots of tips By Beverly S. Gallegos An excellent book with lots of tips, and laid out in a very easy to follow way with step-by-step instructions. The inclusion of "pro-tips" is also quite nice. They're little blurbs which try to encourage creative thinking, experimentation, and other advice for artists and illustrators. Haven't finished it yet, but really enjoy it so far! 1 of 1 people found the following review helpful. Four Stars By Warren JRG Good for the experienced artist. 1 of 3 people found the following review helpful. Five Stars By Erick Beebe Great book.

Building on the foundations set by our popular Art Fundamentals book, Beyond Fundamentals shows artists how to take their work a step beyond techniques and mechanics. A memorable, unique image requires more than just accurate anatomy and choosing the right tools, after all! This impressive volume offers in-depth guidance on conveying mood and emotion, creating narratives, and improving your images' storytelling through composition, character details, and atmosphere. Beyond Fundamentals is an ideal book both for hobbyists and new artists wanting to add extra depth to their work, and for skilled illustrators looking for a spark of new inspiration.
