2 of 2 people found the following review helpful. make all kinds of books and projectsBy pepperlarueDon't let the old-fashioned looking cover fool you! This book is a treasure trove of ideas for a homeschooling mom! Lap books, school projects, pop-up cards, etc, etc....this book-making book has been so valuable, I finally decided to buy it for a whopping .49 cents. Now I can return the one I keep borrowing over and over again from the library!1 of 1 people found the following review helpful. Dinah Zike's presentation of manipulatives is awesome. I highly recommendBy Diana LI purchased the VHS version years ago. The 1992 version has been replaced with a series of Big Books in specific categories. I also own the printed copy of Dinah Zike's Big Book of Projects: how to design, develop make projects from kindergarten through college. My goal was to have the older original version available even after my VHS tape or player went out. But whichever way you go, Dinah Zike's presentation of manipulatives is awesome. I highly recommend.1 of 1 people found the following review helpful. Another great Dinah Zike product!By Barbara (Barbi) GreenThis book is packed with greatness! I love the Dinah Zike books and this one was well worth the

purchase for our family. Dinah is well versed in creating educational content. Thanks for another great product!

This book is the winner of Learning magazine's Teacher's Choice Award. It illustrates how to make HUNDREDS of manipulatives and teaching aids using inexpensive materials found in the classroom or at home. With over 400 black and white photographs and illustrations, this easy-to-use visual guide takes you through the steps for making each student/teacher project that will help convert your classroom into a student oriented learning environment. Gives specific examples of their use over a wide range of subjects. Author: Dinah Zike Format: 134 pages, Paperback Publisher: Dinah-Might Adventures ISBN: 978-1882796076
