While I can read upside down it's not ideal. Both sides are printed with north pointing to the same edge of the sheet, so if you turn over the key from the other side it is upside down. Otherwise it's a decent map for finding trails and getting a rough idea of land access possibilities. It would also be helpful to have more parking possibilities pointed out. Most of Los Padres in the coverage area for this map is wilderness (no vehicles allowed) so you have to park outside and hike in. I imagine there are okay places to park to hike in for camping for a few days to a week or two without paying hefty per-day fees at external state parks or internal concessionary campground facilities, but if there are I can't find them on this map. I believe the very few places marked "P" on this map in the areas actually within park-and-hike-in distances of Los Padres are going to have parking/camping/day use fees that can quickly add up. 1 of 1 people found the following review helpful. This map is NOT of ANY HELP. I traveled to Bixy Bridge then needed to check into our cabin in Big Sur, so instead I purchased a map at a local gas station which was the most useful \$6.00 map ever! Keep in mind, you do not have Cell Phone service in the area of BIG SUR. So buy a detailed map before hand. 0 of 0 people found the following review helpful. Five StarsBy Jay CrewWorks great
