START HERE!By DONALD LEINSJoel Whitburn did a masterful job of compiling accurately the information from Billboard Magazine's Dance Disco Charts. As Whitburnexplained, it was a difficult task due to the many changes in media, and artists appearing on each others' recordings and so forth. The book hasmany extras ,such as noting which artists appeared only on these dance charts making this reference more valuable than the charts themselves.If you're researching the era of disco-dance recordings which were nationally recognized, start with this volume. It's a must!2 of 2 people found the following review helpful. Very interesting.By CHRISAll you want to know about songs and artists
