The wedding planning essential!By LovahhhI used this book when I was getting married and now I buy it for every one of my girlfriends when they get engaged! The best part of the book is the list of questions to ask each vendor, it makes you think about a lot of important details that wouldn't come to mind as a first time bride! Highly recommend even if you aren't on a strict budget!8 of 8 people found the following review helpful. Hugely helpfulBy JMSI was feeling overwhelmed with wedding planning and all of the pressure of traditions and etiquette and formality. This book reinforced how I was feeling about the unnecessary rip offs in the wedding industry. Gave me lots of great ideas.0 of 0 people found the following review helpful. I highly recommend this bookBy Laura RashI got this book about two weeks ago and it has been my bedtime reading as I start to plan! Already it has prepared me with questions to ask as I look at venues, it's helped me decide to make my own veil rather than buying one and overall it makes me feel secure in having a comprehensive picture of the wedding planning process. I highly doubt I will read it word-for-word but as I come up to new stages of the planning process I flip to that section and browse as needed. I highly recommend this book!
