**National Geographic Maps - Reference : Britain and Ireland Classic [Laminated] (National Geographic Reference Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Britain and Ireland Classic [Laminated] (National Geographic Reference Map):

National Geographic's Classic political map of Britain and Ireland is both an attractive addition to any study or classroom and an informative tool for exploring these fascinating countries. The map features thousands of place names, major highways and roads, airports, ferry routes, bodies of water, and more. Handy indexes make it easy to identify the counties, districts, council areas, unitary authorities, and metropolitan districts of Ireland, Northern Ireland, Scotland, Wales, and England. An inset provides detail of the Shetland Islands. National parks are clearly

indicated in green vignettes, and shaded relief reveals the interesting and varied topography of these island nations. English and Gaelic (Irish) share official status per the Republic of Ireland's constitution, so place names are rendered in both. In the Gaeltacht, or predominantly Irish-speaking regions, only Irish place-names have official status and are used on signposts. These districts are found within the counties of Cork, Donegal, Galway, Kerry, Mayo, Meath, and Waterford. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:1,679,000 Sheet Size = 23.5" x 30.25"
