William Burton : Burton's Legal Thesaurus 4th (Fourth) edition Text Only before purchasing it in order to gauge whether or not it would be worth my time, and all praised Burton's Legal Thesaurus 4th (Fourth) edition Text Only:

0 of 0 people found the following review helpful. The BEST reference book for an attorney, everBy B BardI bought two copies of this book when I was a first year in law school. Now, after having been an attorney for more than 25 years, I must say this book is probably the one I use most often. When crafting legal memoranda, it is really important not get in a rut so they all sound the same. I know because as a law clerk for a federal court I do nothing but read briefs all day long. Time is precious to a law clerk and/or judge so, when a brief reads well and stands out, it is likely to engender more thought and consideration by the court. This book makes the writing of a good legal pleading easier as well as helping the attorney keep the writing fresh absorbing. I gave my second copy to an extern who wrote me to tell me she had used it the very next week in law school because she was stuck for a word. I have purchased a copy for every extern since. Scour the book sources and find and buy one. This really is the best and most useful legal book I have ever used.

Will be shipped from US. Used books may not include companion materials, may have some shelf wear, may contain highlighting/notes, may not include CDs or access codes. 100% money back guarantee.
