**Peggy Ann Osborne : Button Button, Identification and Price Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Button Button, Identification and Price Guide:

0 of 0 people found the following review helpful. Five StarsBy Sharonvery good book Thanks2 of 2 people found the following review helpful. great book foe identificationBy BZBadgerI metal detect and come across some very old sites which of course produce objects like buttons. Having a book such as this provides me the ability to figure out those lost items and the history of them.0 of 0 people found the following review helpful. Five StarsBy Kathy A WagnerExcellent Identification, clear and concise pictures and descriptions.

This well-organized guide is recommended by the Button Society as a book that every button collector and dealer should own. The standard book in the field, it gives information to identify the age, material, and desirability of any button that may be found. It covers buttons of every imaginable type, price range and age. Its convenient size make it a perfect field guide, an easy reference for forays into antique stores, flea markets, and yard sales. The price guide is newly updated to reflect the current market.
